

**EINSTEIN
CENTER
3R**

The Einstein Center 3R and the Bioprinting Lab of the TU Berlin warmly invite you to a lecture of our visiting expert:

Prof. Dr. Michael J. Außerlechner

Professor for Tissue Engineering at Medical University Innsbruck

Winner of the Austrian Prize for the support of alternative methods to animal testing 2022 (Staatspreis zur Förderung von Ersatzmethoden zum Tierversuch 2022)

3D bioprinted tissue equivalents to study tumor – microenvironment interaction

When: Wednesday, June 21st, 2023, 16.15-17.45

Where: Technische Universität Berlin

Institute of Biotechnology

Room TIB 21.004

Gustav-Meyer-Allee 25

13355 Berlin

After the lecture, interested colleagues are invited to join us for a dinner on a self-pay basis.

Michael Außerlechner is expert for 3D bioprinted tissues, particularly cancer models. He established the 3D bioprinting laboratory of the University Clinic at the Medizinische Universität Innsbruck. Among his major contributions is a paper on a bioprinted, vascularized 3D neuroblastoma model, which appeared in 2022.

Directions

Public Transportation: S Humboldtthain or
U Schwartzkopffstr.
