

Workshop on Xeno-Free Cell Culture and Bioprinting

For Master Students, PhD Students and Early Scientists

5-9 June 2023

Lecture Series

- Animal components in modern cell biology
- Ethics and the 3R
- FBS-free cell culture
- Bioprinting
- Clean meat

Hands-on Lab Course

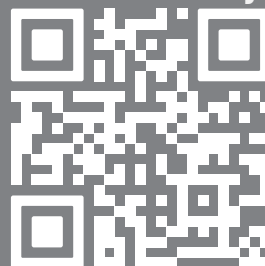

- Cell adaptation to animal-free medium
- Cell splitting under xeno-free conditions
- xeno-free cell cryopreservation
- Xeno-free bioprinting of liver model

Technische Universität Berlin
Institute of Biotechnology
Department of Applied Biochemistry
Gustav-Meyer-Allee 25
13355 Berlin

REGISTER HERE!

Registration from May 1st - 15th
